Nina Keoborakot

UX Designer & Researcher

My design process is focused on research, empathy, and advocacy for the user.

EDUCATION

BS in User Experience Design, DePaul University

September 2015 – June 2019, Chicago, IL

Graduated magna cum laude with 3.74/4.00 GPA

Minors in Graphic Design and History of Art and Architecture

EXPERIENCE

UX Designer and Researcher, Pitney Bowes

July 2019 – Present, Shelton, CT

- Apply design thinking methods to create Client Connect, a web application for clients to access billing, reports, and support
- Facilitate interviews and user tests with clients and iterate designs based on their feedback

Design Intern, Michael Coleman Creative Services LLC

January 2019 – July 2019, Chicago, IL

- Created business assets such as flyers and websites for clients ranging from international hospitality corporations to small business in Chicago
- Participated in daily critique sessions and completed design revisions based on constructive feedback from management and clients

Information Security Communications Designer, Beam Suntory

October 2018 – December 2018, Chicago, IL

- Designed communication materials for the Information Security department at the world's third largest producer of premium spirits
- Built slide decks, print publications, and websites used by management to brief senior executives on departmental proceedings

PROJECTS

Lead Designer, sonq.fm

January 2019 – September 2019

- Lead the design of a mobile music application by creating wireframes, establishing branding, and constructing a high-fidelity prototype in Axure
- Collaborate with a team of software developers to determine application features and ensure adherence to design and branding

Project Lead, Padufus Films Redesign

January 2018 – June 2018

- Managed a team of ten designers and developers during a capstone course focused on designing websites for local businesses and nonprofits
- Utilized the agile methodology to design a WordPress website for a film studio and implement Search Engine Optimization to increase visibility
